LED Compact Thermoplastic Exit Sign

Product Specifications

Take building safety to the next level with the versatile LED Compact Thermoplastic Exit Sign from TCP. Made of durable thermoplastic ABS, this double-sided exit sign is available in red or green and can be mounted from ceilings or walls. Select models feature a powerful battery backup system that keeps the exit sign illuminated for at least 90 minutes after power is lost.

Reasons to choose the LED Compact Thermoplastic Exit Sign from TCP

- Long-lasting, ultra-bright red or green LED's and easily visible 6" lettering

- Easily accessible test switch and charge rate indicator

- Double-sided for top, end, or side mounting

- Self-diagnostic feature performs monthly, biannual, and annual tests to ensure reliable operation and to meet safety codes

- In battery back-up models, transfer switch automatically connects to internal battery for minimum 90-minute emergency illumination

- Battery back-up models feature 4.8V long life, rechargeable NiCd battery

- ETL listed for damp locations

Ideal Applications

- Retail

- Industrial

- Schools

- Hospitals
