# JuicePump<sup>®</sup> 175kW

### Offer powerful DC fast charging

Boost your business' electric vehicle infrastructure with JuicePump 175kW, an advanced version of the JuicePump 50kW DC fast charging (DCFC) solution. Install at a low cost with utility or government incentives to attract new customers that drive electric vehicles. Drivers can charge up to 80% within 20 minutes. Minimize maintenance fees with a state-of-the-art liquid-cooling system that keeps your DCFC operating smoothly in all conditions and allows maximum power delivery to vehicles with both 400V and 800V batteries. JuicePump 175kW is built to last and made for high utilization customer needs including fleets and re-fueling stations.

Take advantage of EVSE infrastructure incentives to bring JuicePump 175kW to your property today:

- Attract more visitors to your business by offering fast charging
- · Generate revenue with unattended payment terminal (UPT\*) and in-app software payment options
- Delineate preferred access and payment settings from the JuiceNet Enterprise smart charging platform
- · Invest in a durable DCFC that includes UV-resistant exterior
- Minimize DCFC maintenance costs with the JuicePump 175kW's state-of-the-art liquid-cooling system

### Why JuicePump?

#### **Faster charging**

Drivers can charger vehicles to 80% battery capacity in under 20 minutes

#### **Eligible for incentives**

JuicePump is approved for utility and government incentive programs including CALeVIP, MassEVIP and others

#### **Attract EV drivers**

Put your business on the map and join a fast-growing network that serves thousands of EV drivers

#### Universal compatibility\*

CCS-1 and CHAdeMO compliance ensures compatibility with all EVs\*\*

#### **Plug and Charge Support**

Charge your vehicle easily and safely without the need to authenticate yourself using any software, RFiD card, mobile app

#### Smart charging software

Use the JuiceNet software platform to collect payment and grant station access

\*USA and Canada only \*\*Tesla requires CHAdeMO adapter
