C-MAX EASYRF™ RECTANGULAR AND ROUND SENSORS

RF-RDMSW

RF-RTPSW

Applications:

Ideal for retrofit or new construction applications:

- Industrial
- Warehouse
- Schools
- Commercial

EasyRF Overview:

EasyRF is a room-based wireless lighting control system designed for effortless integration of luminaire-level lighting controls (LLLC) in both new construction and retrofit projects. As part of the versatile and multi-tiered c-Max Lighting controls platform, EasyRF simplifies commissioning by enabling groupable wireless controls without the need for a mobile app or gateway. Compliant with energy codes and budget-friendly, EasyRF provides an effortless solution for your lighting control needs for any small to medium size projects.

Features:

- Groupable Wireless Controls: Sensors can be zoned and grouped with ease. Includes many functional features typically available with Network controls
- Simple "Plug-and-Play" Connection - Easy to install in the field with pre-installed USB-C receptacle in Maxlite Controls Ready luminaires
- Easy commissioning: Quick setup with an hand-held remote on-screen display with no need for mobile apps or complex software
- Bi-directional communication: Easily Read and Write sensor settings. IR transmission range up to 50 feet between remote and sensor
- Granular dimming: Precisely control light levels in 1% increment. Ability to customize fade time for better dimming transitions
- Zoning: Customize channels and floors for multi-floor fit-outs. Up to 50 channels and 8 floors with capability to group up to 50 devices per channel
- Network : Sub-GHz RF system with ability for signals to travel longer distances. Up to 250 feet node-to-node communication range (line of sight)
- Advanced sensors: Control persistence with motion sensing (bi-level dimming), high trim, daylight harvesting, low trim, daylight trim and repeater functionality
- Extend coverage by configuring sensor as a repeater ensuring robust network performance
- Versatile operation mode: Supports both occupancy and vacancy modes. with ability to create a daylight zone within a zone
- Personal controls: Supports Manual ON/OFF. Automatic ON/OFF and Automatic Partial ON/OFF control capability
- Includes locking screw to resist vandalism and withstand vibration (Requires 2.5mm Allen wrench)
- Check <https://www.maxlite.com/cmax> for c-Max fixture compatibility
- 5 Year Warranty
